EDUCATION

Bachelor of Science in Computer Science
Adamson University
Manila Philippines

Master of Science In Computer Science
Mapua University
Manila Philippines

Google Data Analytics
Google on Coursera
March 12,2024

Google Advanced Data Analytics
Google on Coursera
August 22,2024

SKILLS

- Data Analysis
- Statistical Modeling
- Data Visualization (Python, R, Tableau)
- Machine Learning
- SQL
- Power BI
- Tableau
- Data manipulation
- Programming (SQL,Python, Java,C#)
- Strong Problem-solving Abilities
- Excellent Communication Skills
- Spreadsheets

PROFILE

Results-driven Data Analyst with a Bachelor's in Computer Science and pursuing an MSCS in Artificial Intelligence. Skilled in SQL, Python, Power BI, Tableau, and statistical modeling, with hands-on experience in data automation, predictive analytics, and business intelligence. Passionate about transforming raw data into actionable insights to drive strategic decision-making.

EXPERIENCE

Data Analyst
Freelance, Remote — Apr 2024 - present

- Performed in-depth Exploratory Data Analysis (EDA) on diverse datasets including TikTok metrics and F1 2021 season data to identify trends and generate actionable insights.
- Developed and implemented machine learning models (Random Forest, XGBoost) for classification tasks, achieving high predictive accuracy for social media content.
- Built automated web scrapers using Python to collect and process real-time Formula 1 results, creating structured datasets for ongoing analysis.
- Created interactive data visualizations and dashboards to communicate findings effectively and support client decision-making.

Skills gained:

- Python (Programming Language) · Pandas (Software) ·
- Data Scraping ·
- Data Visualization · Power BI, Tableau
- Machine Learning ·
- Exploratory Data Analysis ·
- SQL ·

Data Analyst (Intern)
Sudatel, Sudan — Mar 2023 - Apr 2024

- Collaborated with the Business Intelligence (BI) team to analyze large datasets, generating insights to optimize operational efficiency.
- Developed SQL queries and automated reports using Python (Pandas) to streamline data extraction and visualization.
- Created interactive dashboards in Tableau to track KPIs, improving data-driven decision-making for stakeholders.
- Key Skills: Data Mining, ETL, Data Warehousing, BI Tools

Skills gained:

- Pandas (Software) ·
- Data Science ·
- Data Analytics ·
- Programming · SQL ·
- Programming Languages ·
- Microsoft SQL Server ·
- Data Analysis · Databases

EXPERTISE

Certificates

- Google Data Analytics
- Google Advanced Data Analytics

Languages

- Arabic – native
- English – C1

Technical

- Jupyter notebook
- SSMS
- Adobe Photoshop
- Microsoft Office
- Spreadsheets

PERSONALITY

- Meticulous
- Open-minded
- Goal-oriented
- Fast learning
- Team player

INTERESTS

- Psychology
- Sports
- History
- Politics
- Activism
- Cultures diversity

EXPERIENCE

Developer

Laguna Games INC, Philippines Mar2022 – May2022

- Built Python automation scripts to process and clean gaming data, reducing manual workload by 40%.
- Developed web-based tools using HTML, CSS, and JavaScript to visualize player behavior analytics.
- Assisted in database optimization, improving query performance for faster reporting.
- Key Skills: Web Scraping, Automation, Data Pipelines

Skills gained:

- JavaScript ·
- Cascading Style Sheets (CSS) ·
- HTML
- Programming · Programming Languages ·
- Python (Programming Language)

IT technical/Receptionist

MaxPert Dental Clinics, Sudan Jun 2019 – Aug 2020

- Automated daily financial reports using Excel macros, reducing reporting time by 50%.
- Managed patient databases, ensuring data accuracy and integrity for clinic operations.

- became familiar with database
- became familiar with words and excel
- gained communication skills
